

Manage All Your Restaurant Operations from One Intuitive System

Speed up your restaurant's operations effortlessly with one collaborative platform that boosts your business efficiencies, drives more sales with loyalty, manage menus, reports, and inventory, gather insights, and stay competitive across all your channels.

Digital Ordering for A Mobile First World

A digital ordering platform to reach more customers, service new guests, and become more competitive.

- Customized design to fit your brand
- Wow your customers with easy ordering and robust loyalty
- Drive more revenue with off-premises ordering
- In-depth data insights to track progress
- No-contact built-in features for curbside, takeout, and delivery

Loyalty & Rewards That Drive Growth

Identify your best customers by frequency and spend and keep them coming back with a robust loyalty platform.

- Simple to set up – fully customizable
- Identify your best customers by frequency and spend
- Engage on mobile, online and in-store
- Secure, tiered rewards and single-use reward codes
- Know your customers better with real-time insights
- Easy management interface helps keep costs down while empowering you to review data and make decisions

Delivery & Takeout, Simplified

Service guests on their terms. Configurable delivery and curbside services with your drivers or leverage a third-party partner.

- Simplified order look-up and real-time mapping of orders and drivers
- An integrated kitchen display helps staff stay on track
- Real-time mapping of orders and drivers
- Operate multiple delivery zones, seamlessly
- Reduce costs with driver tracking, called ID and on-demand logistics
- Increase repeat business with greater guest satisfaction and no contact features

Manage Your Restaurants from Anywhere

Measure business health with real-time reporting and actionable data to streamline your operations and drive growth with our integrated reporting and management HUB.

- Multi-store operations from anywhere, at your fingertips
- Improve store efficiencies with integrated driver logistics
- Save time pulling reports with point-of-sale managed in one place
- Dive into vital above store insights for a 360 view of your operations
- Document repository for compliance and governance
- Own your data with fully integrated Point-of-Sale

Point-of Sale, Redefined

Analyze sales data, connect with customers, track inventory, and manage employees all in one place.

- An intuitive user interface to manage your day-to-day operations
- Easily measure business success
- Stop wasting time on tedious tasks – updates are automatic
- Access crucial insights about your operations
- See critical order and spending trends
- Master menu management with ease

No Contact Delivery is the New Norm

Let your customers choose how and where they want their food with a contactless delivery option.

- Empower your guests to choose delivery to their door without a direct handoff by their driver
- Save message notes to a customer's profile for future orders and to promote offers
- Keep more money in your pocket with in-house delivery instead of paying commissions to 3rd parties
- Fully integrated into your Online Ordering platform and Mobile App experience

HungerRush is leading innovation for the hospitality industry with its advanced restaurant management system (RMS) which gives restaurants and chains the ability to drive revenue growth by acquiring deep knowledge of their customers, and to achieve operational excellence through end-to-end integration.
